2020 Arts Day – Stage Event Guidelines
Theme - "Light"

- Each grade will plan **six to eight events** (at least **three DIFFERENT** types and only **two technology-heavy, amplifier** types) for the stage, using **20-40 minutes**.

- Students and advisors work together to discern the events.

- Each event **must have faculty supervision** and must be approved by the Fine Arts Committee. The Fine Arts Committee members are available to all chief advisors to aid in discernment related to content or quality questions.

- These events may consist of performances in music, readings, dance, montages, and other performances appropriate for the stage.

- Events will be **scored according to a rubric** that includes skill, difficulty, and connection to the theme.

- Any individual student may not be in more than three stage events.

- Submit information to Mrs. Moyer **via Word** documents (at kjmoyer@dock.org) or share with Mrs. Moyer via **Google.docs** (at kjmoyer@dock.academy).

- Students can create the documents themselves, but the chief advisor must approve the documents, and evidence of such approval must be included with the document submission.

- **Due dates:**
  Friday, December 13, 2019 – how many events and the type of events
  Friday, January 24, 2020 – titles and participants involved in each event
  Monday, February 3, 2020 – all final details and theme explanation For the program (including A.V. requirement form)

- **Theme paragraphs**: Carefully written theme descriptions of 50-75 words are required for each event and will greatly help the judges award the points in this area. Descriptions will also be read aloud between the performances. Please include approximate minutes of the event. **Due by February 3.**

- For each deadline that is missed, the class will receive a .5 deduction in score. It is better to take a deduction and put on a quality performance than to continue with an ineffective plan.

- **All powerpoints, website pictures, and the like are enhancements to stage events only.**

Scoring:

- **Rubrics will be used to score all events/entries.**

- **A half-point will be deducted for each minute under or over the 20-40 minute time period.**

- **All stage events** are averaged together to receive an overall stage score (out of 100).

- The **top three creative writing entries** from each class will be averaged. Zeroes are calculated if the class has fewer than three entries.

- The **top three culinary entries** from each class will be averaged. Zeroes are calculated if the class has fewer than three entries.

- The **top three fabric arts entries** from each class will be averaged. Zeroes are calculated if the class has fewer than three entries.

- The **top three photography entries** from each class will be averaged. Zeroes are calculated if the class has fewer than three entries.

- The **top three visual art entries** from each class will be averaged. Zeroes are calculated if the class has fewer than three entries.
